

I wish to state my opposition to weakening Indiana's state law that protects its citizens from unwanted phone calls and solicitation. I feel strongly that we have the right to our privacy and feel that this is an instance where special interest groups are trying to bully their way into our homes. I feel your office can stand up and help fight for the common man, and strongly urge you to do so by NOT allowing Indiana's law to be weakened or changed. Thank you, from all of the common men and women of the state of Indiana!
